

Safety Concerns on Speedway

Problems:

1. Lack of Stop Signs

(Only 5 at 32 access streets for the 1.5 miles between Marine Ct. and 30th Pl.)

2. Lack of Speed Limit Signs

(none on 20+ access streets, 1.2 miles on Speedway w/NO SL sign)

3. Lack of Speed Humps

(none – they were removed in the 1990's and not replaced)

4. Lack of Crosswalks at Walk-Streets

(none at any of the 32 Walk-Streets intersecting Speedway)

LADOT classifies Speedway as an 'Alley'.

"The LADOT does not perform 'Studies' on 'Alleys'."

-LADOT
