PROJECT TITLE: Venice Cultural Historic Landmark Site Markers

PROJECT DESCRIPTION:

Our Site Markers with etched photographic imagery of the associated historic site, will tell the colorful stories of Venice history. They can stand alone, or, with the use of a QR code, the site markers will compliment and invite users to our free mobile Venice tour App.

Venice has an abundance of multi-cultural historic sites that could receive markers. They include significant architectural sites including, the 100 year old Short Line Trolley Bridge, The Venice West beat poet landmark, the Ocean Front Walk Pagodas, the iconic Italian Colonnade.

PUBLIC BENEFIT:

Site Markers will enable Venetians and visitors alike to discover, explore, learn and enjoy stories of Venice's colorful history, fascinating culture and cool contemporary life.

This will enrich the knowledge of locals, increase cultural understanding, strengthen community pride and enhance tourism.

While Site Markers can stand alone as informative and fascinating additions to the community, with the inclusion of identifying text and a QR code, they can also draw the public to the mobile App we propose to create.

MOTION:

Whereas Venice is an unique community with a colorful history, fascinating culture and cool contemporary life, and

Whereas both residents and visitors, alike, are not always familiar, but gain pride in learning of significant locations and their associated stories of Venice's multi-cultural history, people and contemporary attributes,

Now, therefore the Venice Neighborhood Council moves to allocate One Thousand Dollars (\$1000) of Community Improvement Project funds for the creation and installation of 20 historic Site Markers.
