**9H Senator Kevin De Léon ANTI Neighborhood Council Comments (Ivan Spiegel on behalf of LANCC, [parliamentarian@venicenc.org](mailto:parliamentarian@venicenc.org) 310 821-9556) (15 minutes)**

**MOTION:** The VNC Board shall send the following letter to Mayor Eric Garcetti & the entire Los Angeles City Council, 200 N. Spring Street, Los Angeles, CA 90012 cc: Department of Neighborhood Empowerment

cc:Senate President pro Tempore Kevin De Léon

Re: Adhere to Section 9 of the Los Angeles City Charter and respect the voices of the NC system.

The Venice Neighborhood Council which represents over 35,000 Venice stakeholders who reside, own property, or conduct business in our neighborhood calls on each and every member of the City Council and Mayor Eric Garcetti to immediately affirm in words and in writing their belief in the City's Neighborhood Council system, to the right of the people to weigh in on local issues and to their commitment to respecting those voices and acting in support of the people's choices.

Furthermore, we request that the foregoing expressly repudiate Senate President pro Tempore Kevin De Léon's recent on-air remarks that LA City Council members told him that "we have been strangled, we have been handcuffed by the NIMBYism and the threats from Neighborhood Councils within our own communities".

The flagship Neighborhood Council system created by a vote of its citizens in the City Charter of Los Angeles has been its pride and joy, a showcase for participatory democracy that has been promoted to cities around the world. It does not deserve to be crushed because the people oppose how the City wants to implement a much-needed program. This is a call to the City and State to move forward prioritizing the people's wishes, not expediency for bureaucrats.

The Venice Neighborhood Council stands with the 96 other Neighborhood Councils across the City in calling for the exposure of all communication that led to the Senator's statement, as well as our City Council's reaffirmation of the Neighborhood Council system and the commitment of the City to a support citizen self-governance.

**13D Street Tree Protection (George Francisco on behalf of the Neighborhood Committee [vp@venicenc.org](mailto:vp@venicenc.org), ) (10:40PM -- 20 minutes)**

**MOTION:** Whereas the City of Los Angeles has reached a settlement in the case of Willits v. City of Los Angeles under which more than \$1 billion in investment is being made in city sidewalk repairs and other pedestrian improvements to ensure better access for persons with mobility disabilities; and

# Venice Neighborhood Council

Email: [info@VeniceNC.org](mailto:info@VeniceNC.org) Phone: 310-421-8627

Whereas the settlement poses a number of implications for Los Angeles' natural ecosystem, primarily for the City's street trees, which are an important component of the City's urban forest and a great asset to its residents, but which are sadly dwindling due to a number of factors; it is imperative that the City of Los Angeles implement measures to preserve, sustain, and grow its urban forest.

Therefore, the Venice Neighborhood Council recommends that the City Council adopt the following suggestions of the Community Forestry Advisory Committee letter of September 7, 2017 to Shilpa Gupta, Environmental Supervisor for the Bureau of Engineering, Environmental Management Group in regards to their Initial Study for the Environmental Impact Report for the Sidewalk Repair Program

- (1) Increase Funding for the Urban Forestry Division (UFD)
- (2) Create a Tree Inventory Database for the City of Los Angeles
- (3) No Healthy Trees Should Be Removed Until Completion of the EIR, Nor Without Appropriate Mitigation Measures.
- (4) Increase tree replacement ratio to 4:1.
- (5) Implementation of Best Management Practices.
- (6) Improving and Increasing Transparency.
- (7) Devise and Implement an Outreach and Educational Program.
- (8) Address Effects on Wildlife and their Habitat.
- (9) Perform Periodic Assessment of the Environmental Impacts of the Program following completion of EIR.
- (10) Implement a Mechanism to Monitor and Ensure Survival of the Program's Replacement Trees.
