no open business fronts, merchants or resident structures yet consistent high traffic of motorized vehicles for this particular street block, and Whereas, motorized vehicles, including oversized heavy and slow-to-stop vehicles such as delivery and garbage collection trucks, more often than not use this particular street block to unnecessarily speed, and Whereas, these stated circumstances for this particular street block are a perfect recipe for a future pedestrian loss of life, now Therefore, be it resolved, that the Venice Neighborhood Council send a letter to the Department of Street Services Division recommending the installation of speed bumps for this particular high traffic street block to maintain a safe environment year round for community stakeholders and visitors to Venice alike.
