FINDINGS OF FACT

After thorough consideration of the statements contained in the application, the plans submitted therewith, and the report of the Zoning Analyst thereon, all of which are by reference made a part hereof, as well as knowledge of the property and surrounding district, I find that the requirements for authorizing a conditional use plan approval under the provisions of Section 12.24-M have been established by the following facts:

BACKGROUND

The property is a level, irregularly-shaped, corner, through lot, with frontages on the westerly side of South Lincoln Boulevard, the southerly side of South Washington Boulevard, and the easterly side of South Carter Avenue. The lot has a varying width of approximately 384 feet (along Lincoln Boulevard) to 379 feet (along Carter Avenue) and length of 86 feet (along Washington Boulevard) to 98 feet (along the southerly lot line). The lot is split-zoned, with the northerly one-third being zoned C2-1, and the remainder zoned C4(OX)-2D. The subject site is located within the C4(OX)-2D Zone. The C4(OX)-2D Zone designation relates to the Oxford Triangle Specific Plan; the instant application is unaffected. The subject property is located within the Venice Community Plan, the Los Angeles Coastal Plan, the Venice Coastal Zone, and the Oxford Triangle Specific Plan.

The property is developed with two, one-story commercial buildings and surface parking. The building located on the C2-1 portion of the lot is a "Walgreens" drugstore which recently opened. The second building, located in the C4(OX)-2D zoned portion of the lot, is a multi-tenant mini-shopping center.

Vehicular ingress and egress is via a two-way driveway accessing Lincoln Boulevard located across from the subject restaurant and a second two-way driveway accessing Carter Avenue between the two on-site buildings. According to the applicant's plot plan, there are a total of 71 on-site parking spaces.

Adjoining properties to the northwest (across Washington Boulevard) are zoned C2-1 and developed with one-story automotive repair and fast-food uses.

Adjoining properties to the east (across Lincoln Boulevard) are zoned C2-1 and M1-1 and developed with one-story corner commercial, restaurant, fast-food, and surface parking uses.

The adjoining property to the southeast is zoned C4(OX)-2D and developed with a one-story art gallery.

The adjoining properties to the west (across Carter Avenue) are zoned C2-1 and R1-1 and developed with a two-story office building with surface parking and one- and two-story single-family residences.

Lincoln Boulevard, adjoining the property to the east, is a northwest-southeast substandard Major Highway, Class I dedicated a variable width of 100 to 116 feet and fully improved with curb, gutter and sidewalks.

Washington Boulevard, adjoining the property to the north, is a northeast-southwest substandard Major Highway, Class II dedicated a variable width of 97 feet to 100 feet and fully improved with curb, gutter and sidewalks.

Carter Avenue, adjoining the property to the west, is a northwest-southeast substandard Local Street dedicated a variable width of 40 to 60 feet and fully improved with curb, gutter and sidewalk along the westerly side, and with curb, gutter and sidewalk from Washington Boulevard to a point just northerly of the subject restaurant's lease-hold space, then only improved with an asphalt parking berm further southerly.

Previous zoning related actions on the site/in the area include:

Subject Property:

Case No. ZA 2004-0957(CUB) - On June 4, 2004, the Zoning Administrator approved a conditional use to permit the sale and dispensing of beer and wine only for on-site consumption, in conjunction with an existing 1,850 square-foot sit-down restaurant, with 48 seats having hours of operation from 11 a.m. to 12 midnight daily.

Surrounding Properties:

Case No. ZA 98-0051(CUE) - On April 17, 1998, the Zoning Administrator approved a conditional use exception to permit the on-site sale and consumption of beer and wine only in conjunction with an existing 1,500 square-foot restaurant accommodating 39 persons at 3115 South Washington Boulevard. Hours of operation for this use were limited to 11:30 a.m. to 11 p.m. daily.

Case No. ZA 85-0511(PAB) - On December 30, 1985, the Zoning Administrator approved plans and change of occupancy for a deemed-to-be-approved existing one-story bar with conditional use status to sell alcoholic beverages for on-site

consumption having a total occupancy of 235 persons at 4089 South Lincoln Boulevard. Posted hours of operation are 4 p.m. to 2 a.m. daily.

AUTHORITY FOR PLAN APPROVAL

Section 12.24-M of the Los Angeles Municipal Code provides in part:

"M. Development, Change or Discontinuance of Uses:

1. Development of Site. On any lot or portion thereof on which a conditional use is permitted pursuant to the provisions of this section, new buildings or structures may be erected, enlargements may be made to existing buildings, existing uses may be extended on an approved site, and existing institutions or school developments may be expanded as permitted in Subsection L of this Section, provided plans therefore are submitted to and approved by the Commission or by a Zoning Administrator, whichever has jurisdiction at that time ...".

BASIS FOR CONDITIONAL USE PERMITS

A particular type of development is subject to the conditional use plan approval process because it has been determined that such use of property should not be permitted by right in a particular zone. All uses requiring a conditional use permit from the Zoning Administrator are located within Section 12.24-W of the Los Angeles Municipal Code. In order for the sale of beer and wine for on-site consumption to be authorized, certain designated findings have to be made. In these cases, there are specific conditional use categories which have additional findings in lieu of the four standard findings for most other conditional use categories.

FINDINGS

Following (highlighted) is a delineation of the findings and the application of the relevant facts to same:

1. **The proposed location will be desirable to the public convenience or welfare and the location is proper in relation to adjacent uses or the development of the community.**

The location was previously approved for the sale of beer and wine pursuant to ZA 2004-0952(CUB) on June 4, 2004. The restaurant is located within a shopping center and at the time part of the center was being remodeled to accommodate a Walgreens. In response to inquiries that there would be parking available for the restaurant once the new Walgreens opened, the applicant's representative indicated at the original public hearing that nine parking spaces could be marked as reserved exclusively for the restaurant use. Condition No. 8 of the original grant required that such parking spaces be depicted as reserved. Subsequently, the applicant learned that the landlord would not permit that parking spaces be reserved for a specific tenant and therefore the applicant has requested the modification of the condition.

Nonetheless, the new Walgreens has parking that is shown as reserved for its patrons. Additionally, a site visit to the center reveals that there are other uses which have reserved parking assigned, namely a cleaners and photo shop (which is no longer in business). There are 71 parking spaces at the center with 26 spaces shown as reserved for Walgreens. Clients for Walgreens have reserved parking and the hours of many of the other business in the shopping center do not conflict with evening hours of the restaurant. Therefore, the request to provide parking with no posted reserved signs for the restaurant use exclusively is reasonable and will not result in the loss of any of the required parking.

As noted in the June 4, 2004 conditional use approval "... *The restaurant will serve Korean food and include barbeque grills at the individual tables. Seating is proposed for 48 patrons and the hours, 11 a.m. to 11 p.m. do not extend beyond those permitted by the mini-shopping center regulations which do not permit operation beyond 11 p.m.*

As proposed, the use does not represent the introduction of use not common to the area. The use will serve a public convenience and welfare and as sited, the location is compatible with the character of the surrounding uses. In addition, the proposed use in conjunction with the imposition of a number of conditions addressing operational and alcohol-related issues will safeguard public welfare and enhance public convenience." Such circumstances are not changed by this modification.

2. The use will not be materially detrimental to the character of the development in the immediate neighborhood.

No other changes to the original grant have been requested. The grant retains the original conditions imposed upon the use, some of which are based on conditions which have been volunteered by the applicant. These conditions will continue to make the use more compatible with other uses in the surrounding community.

The June 4, 2004 approval set forth the following: "... *Seating is limited to 48 seats. The proposed hours of operation between 11 a.m. and 11 p.m. are reasonable and, as noted, do not conflict with the permitted hours of the mini-shopping center regulations. Included in this authorization are also a number of conditions volunteered by the applicant, some of which are directly related to the sale of alcohol.*

Employees are required to undergo the training regarding sale of alcohol conducted by the Los Angeles Police Department. Parking has been required to be specifically reserved via the use of signs for the use of the restaurant patrons to assure availability of such spaces when the restaurant is open. The applicant notes that the shopping center also employs a 24-hour patrol security firm which oversees the entire development. No testimony in opposition to the request was presented at the public hearing nor through any correspondence. A representative of the Office of the Eleventh Council District also indicated no opposition to the request at the public hearing."

The subject grant for the sale of beer and wine was authorized originally for a term of five years. Under this grant the original date for the grant to expire has not

changed. The term grant would be set to terminate on June 21, 2009, which is five years from the effective date of the prior grant. Thus, as originally conditioned, the use continues to not be anticipated to be materially detrimental to the development of the immediate neighborhood.

3. The proposed location will be in harmony with the various elements and objectives of the General Plan.

The Venice Plan Map designates the property for General Commercial (northern portion) and Community Commercial (southern portion) land uses with corresponding zones of CR, C1, C2, C4 and P (General Commercial) and CR, C1.5, C2, C4, P and PB (Community Commercial) and Height District Nos. 1 and 2D.

The subject property is planned and zoned for commercial uses. The conditional authorization for the sale of alcoholic beverages on-site, is allowed through the approval of the Zoning Administrator subject to certain findings. The required findings in support have been made previously pursuant to the original grant.

4. The proposed use will not adversely affect the economic welfare of the community or result in an undue concentration of premises for the sale of alcoholic beverages after given consideration to the State laws and to the California Department of Alcoholic Beverage Control's guidelines for undue concentration and giving consideration to crime rates in the area.

No changes to the license count are created by the modification of the reserved parking condition. As set forth by the original approval, "... State's Department of Alcoholic Beverage Control (ABC) licensing criteria, 3 on-site and 2 off-site licenses are allocated to subject Census Tract No. 2741.00. There are currently 12 on-site and 1 off-site licenses in this Census Tract. Within 600 feet of the subject property, there are 7 on-site and 2 off-site existing licenses.

The subject location is within a commercial corridor which is heavily developed and which includes a variety of restaurants. Thus the existing license count is anticipated and not an unlikely condition for a property located in a C2 zoned corridor at the intersection of two designated Major Highways, namely Lincoln Boulevard and Washington Boulevard.

Statistics from the Police Department, as provided by the Department of Alcoholic Beverage Control, reveal that in the subject Crime Reporting District No. 1444, which has jurisdiction over the subject property, a total of 237 crimes were reported in 2002, compared to the citywide average of 285 crimes and the high crime reporting district average of 342 crimes for the same period. These numbers do not reflect the total number of arrests in the subject reporting district over the accountable year. Arrests for this calendar year may reflect crimes reported in previous years.

The crime rate numbers are lower than those rates identified for the City. This grant includes a number of conditions, including some related to the sale of alcohol as well

as reasonable hours of operation which will help to safeguard the community and provide for a responsible operation."

5. **The use will not detrimentally affect the nearby residentially zoned communities in the area after giving consideration to the distance of the proposed use from residential uses, churches, schools, hospitals, public playgrounds and other similar uses and other establishments dispensing, for sale or other consideration, alcoholic beverages, including beer and wine.**

The instant request is incidental to the original approval which found the following: "There are residential uses westerly of the site. There are also other establishments which sell alcohol for on-site and off-site consumption within the area. Since the site is located in a prime commercial area, the diversity amongst the uses is not uncommon. This grant has placed numerous conditions on the proposed project and not authorized uses of the property which might create potential nuisances for the surrounding area. Such imposition of conditions, including a five-year term grant on the approval regarding the sale of alcohol, will make the use a more compatible and accountable neighbor to the surrounding uses than would otherwise be the case."

ADDITIONAL MANDATORY FINDINGS

6. The National Flood Insurance Program rate maps, which are a part of the Flood Hazard Management Specific Plan adopted by the City Council by Ordinance No. 172,081, have been reviewed and it has been determined that this project is located in Zone C, areas of minimal flooding.
7. On February 17, 2004, the project was issued a Notice of Exemption (Article III, Section 3, City CEQA Guidelines), log reference ENV 2004-0953-CE, for a Categorical Exemption, Class 5, Category 10, City CEQA Guidelines, Article VII, Section 1, State EIR Guidelines, Section 15100. I hereby adopt that action.
8. Fish and Game: The subject project, which is located in Los Angeles County, will not have an impact on fish or wildlife resources or habitat upon which fish and wildlife depend, as defined by California Fish and Game Code Section 711.2.

Should your CUB require STAR attendance, it is your responsibility to notify the Los Angeles City Zoning Administration regarding compliance with this condition. Please maintain this letter in your business files as proof of attendance.

It is the goal of the LAPD to promote the responsible sales, service, and consumption of alcoholic beverages thereby reducing alcohol-related crimes. By participating in the STAR training program, you and your employees have been given an opportunity to reduce the negative impact irresponsible alcoholic beverage service has on our communities. By working in partnership with the LAPD, you have demonstrated your commitment to assisting in the overall goal of responsible ABC retail operations.
