

**APPLICATION SUMMARY SHEET**

PROJECT NAME <b>Westminster Network Printers</b>	
BRIEF PROJECT DESCRIPTION (50 WORDS OR LESS) <b>We are proposing to replace broken, older, and/or malfunctioning printers in the classrooms with regional network printers. These printers are 3 times more efficient, as well as require far less maintenance. The network printers will allow the community school as well as the computer technology magnet students best publish their academically based projects.</b>	
PROJECT SITE NAME AND FULL ADDRESS <b>Westminster Elementary School, 1010 Abbot Kinney Blvd., Venice, CA 90291</b>	
PROJECT COMPLETION DATE <b>Approx. 8 weeks after receipt of funding</b>	# OF VENICE STAKEHOLDERS TO BENEFIT BY THIS PROJECT <b>Approx. 600 students and staff at school and countless Venice residents</b>

REVIEW (For Office Use Only)
------------------------------

PROJECT # (For Office Use Only) <b>M</b>
---

**PROJECT DESCRIPTION SHEET**

**PROJECT DESCRIPTION** (Include how many stakeholders will be working on this project.) (Maximum 500 words)

This grant will provide access to high quality laser printers that will support the students, and help them produce high quality work across all strands of academics - including math, science, language arts, social studies, arts, and technology. Ten Brother HL2070 W wireless network laser printers will be installed in classrooms throughout Westminster Elementary school, located at 1010 Abbot Kinney Blvd., Venice, CA 90291. All students and staff will have access to these printers.

If we are awarded this grant Arc Designs, the current technology consultant to Westminster, will install all above equipment at no charge. They are a preferred vendor to Los Angeles Unified School District (LAUSD). Arc is approved and insured to do this work.

Currently there are obsolete inkjet printers in some of the classrooms. It has become difficult for the students to publish their completed projects. There are a few printers in the computer labs, but access to the labs is limited as they are shared by the whole school. Printing in the classrooms will allow students more time to complete and publish their projects. Having the ability to access immediate printing needs in all classrooms, by all students and staff, will enrich and accelerate academic learning, research, and publishing needs.

IS THIS PROJECT PART OF A LARGER PROJECT?  YES  NO

**COMMUNITY BENEFIT** (Description of benefit to the entire community and justification for these benefits)

Most of the students in both schools, some of the staff, and many of the volunteers are Venice residents. While all will benefit, the most to gain from this project will be the students. The students and staff have, and continue to work closely with many of the businesses along Abbot Kinney Blvd. Last year our students worked with G2 Gallery and had the students math photography project as one of their featured art shows. Our students have also displayed their published works at the annual Venice Art Walk. One student even sold a piece. All of this benefits the whole community, but the students gain the most. Having their published works on display recognizes their self-worth, gives them confidence, a sense of achievement, pride, and possibly that one bit of acknowledgement that changes a child's future in the most positive way. We are pursuing more ways to showcase, exhibit, and post student work throughout the community.

Overview/Features Specifications Supplies & Accessories

### Overview

#### Compact Laser Printer for your Home or Home Office

The HL-2170W is a compact, budget-friendly monochrome laser printer that is ideal for printer sharing. Featuring the same print speed, footprint and paper handling as the HL-2140, the HL-2170W also offers wireless 802.11b/g and wired (Ethernet) network interfaces for connecting to your wired or wireless router\*. In addition, it includes 32MB of memory standard for faster processing and PCL6 emulation for greater compatibility.

### Main Features

- Built-in wireless (802.11b/g) and wired (Ethernet) network interfaces.** Perfect for family or home office print sharing, the HL-2170W provides flexible connectivity with USB, wireless and wired network interfaces. A built-in wireless interface enables users to get rid of messy cables and to place the printer in the most convenient location in their environment.
- Fast print speed.** With a print speed of up to 23ppm, you can quickly produce all of your letters, reports, spreadsheets and other documents.
- Quick processing.** 32MB of memory enables the HL-2170W to quickly process your print jobs and handle more complex documents.
- Compact footprint.** The HL-2170W easily fits on any shelf, desk or crowded workspace.
- Convenient Paper Handling.** A 250-sheet capacity paper tray\* means you will spend less time refilling the tray, and a manual by-pass slot is available for printing envelopes and letterhead.
- High-quality laser printing.** With HQ1200 print resolution (up to 2400 x 600 dpi), your documents will have crisp text and graphics.
- Easy to set up and use.** For users with wireless access points that support SecureEasySetup™, Wi-Fi Protected Setup™, or AOSS™,† you can automatically configure your wireless settings by simply pressing a button on your router.

**PROJECT PLANNING SHEET**

**WORK PLAN** (Include a TIME-LINE for the project with beginning date and completion date of each phase)

Work will begin as soon as project is funded.

**Timeline:**

- 1) Purchase hardware + peripherals . . . . . 3 weeks
- 2) Installation . . . . . 3 weeks

\* Installation will be provided free of charge by Arc Designs.

**MAINTENANCE PLAN** (if applicable)

Arc Designs has had, and continues to have, an ongoing contract with Westminster Elementary School to maintain, and repair all computers and related equipment. They have agreed to maintain the network laser printers on an ongoing basis. Our staff (specifically Todd Lesner, Doreen Rosenoff, and Ms. Brown) will contact Arc Designs for any trouble-shooting, maintenance, or repair needs, as problems arise. Arc Designs will be on call and send various employees, as needed, to keep all network equipment running and servicing the students and staff needs. Arc Designs routinely comes to our school to make sure that all equipment is working, even when there are no specific problems.

**ORGANIZATION SHEET (if applicable)**

(Only complete this form if the applicant is an organization. If so, do not complete Page 7)

ORGANIZATION NAME	Westminster
ORGANIZATION ADDRESS	1010 Abbot Kinney Blvd, Venice, CA 90291
ORGANIZATION DESCRIPTION AND PURPOSE (Include the experience that your organization has in the execution of similar projects)	<p>Public elementary school, grades k - 5, part of Los Angeles Unified School District.</p> <p>primary function is to educate students in Venice, near Abbot Kinney - Oakwood neighborhood.</p> <p>We are a computer science and math magnet as well and have tried to keep up with technology. We have gained, and installed two complete computer labs as well as classrooms with computers, more than once in the past few years alone. In the last six months Arc Designs, along with our staff, set up a server and networked our lab and school computers to server, as well as imaging all old and new computers.</p>

## THE MATCH

All applicants previously receiving Community Improvement funds from the Venice Neighborhood Council must provide matching funds. The match is the applicant's contribution towards the project. The applicant must provide documentation that shows a contribution that equals or exceeds the amount requested from the VNC.

The pledged match should come from resources accumulated by the applicant to be used specifically towards the implementation and completion of the proposed project. All matching funds must be in "hard" dollars. Volunteer time or donated labor or services may not be used to match. Matching funds must be generated from the time of funding (July 2010) until the completion of the project. Documentation of contributions or pledges of support should be attached to this application.

Applicants required to provide matching funds must complete PART B of the Budget form. The project's total budget should be the amount requested plus the match.

It is recommended that any questions concerning appropriate matching funds be addressed to the Program Administrator prior to the submission of this application.

Volunteer residents from the Venice community, specifically from Venice arts, galleries, and the Venice Library, will assist the students in publishing and exhibiting their work at Venice galleries, such as G2 on Abbot Kinney, the Venice Library, the Venice Art Walk, and retail stores such as Pinkberry on Abbot Kinney. This will involve and enrich the Venice community. As we reach out into the community we will continue to form new partnerships and connect with the community on a more frequent level with the ability to publish high quality works that showcase our students achievements.
