

## Candidate Statement for Sean Kelly

My name is Sean Kelly. I was recently appointed to the Board of the Venice Neighborhood Council for 2008 and would like to offer my dedication and commitment to the Neighborhood Council in this chance to ask you to vote and confirm me as a Community Officer.

I am eager to have the chance to be involved with not only the Neighborhood Council and Communications Committee in general but the whole of the community and the efforts that the Neighborhood Council undertakes. I hope to apply the skills from my career in technology to the whole of Neighborhood Council communications efforts in order to help create better communication and relation within our community.

I currently am the lead programmer/designer at Practice Technologies Inc. with our offices located in the heart of Venice and our mindset embedded in its way of life. Being involved and giving back are ideals that I am proud to focus on in life and in this special place that we have all managed to find on the west coast.
