REVIEW (For Office Use Only)

PROJECT # (For Office Use Only)  
J

February 12, 2011

To: Community Improvement Project Funding:

Over the years, the resident of the Venice Canal have to put up with homeless people sleeping/camping on the ground at the Venice South North/West entry of the Canal on Grand Canal.

I don't have to itemize to you the problems (health, security etc.,) that this bring to all the people that reside in Venice as it supposed to be one of the most visited tourist attraction in the world.

As I look around, I figured out that the reason no one sleep/camp on the opposite ground of the entry (Venice South North/East to the Canal) is because a nice cactus garden is planted in there.

My project is to simply plant about 3 palms trees in the ground and have nice rocks and stones (will make sleeping on it very un comfortable) and plant different cactus between the rocks and stone.

This kind of garden does not require watering or maintenance except once a year.

To budget the project I estimated about \$2000 for the initial planting of the garden; Trees, soil, cactuses, rocks and labor. In the following years, I will ask my community to contribute for the maintenance of the garden. This type of garden does not required maintenance but in a case we need to trim the trees in a few years I will ask my community/neighbors to help with donation and I will make sure it is taking care of.

This project is not just beautification the entry to the canal but save money as we, the residents of the Venice Canal, been requesting the services of the police and the city, every year to help us remove the homeless from this ground so we can be safe and keep the Canal clean for bottles, foods and trash that the homeless leave when they camp at the ground on the Venice South North/West entry.

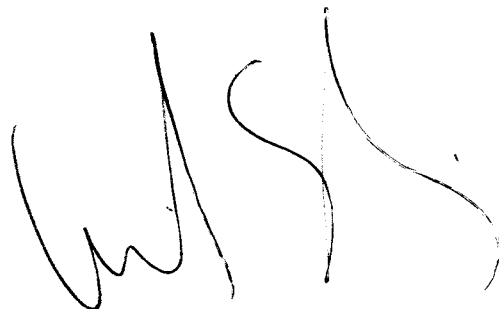

Thank you so much

Gila Standring
