

Candidate Statement of Joey Soto Running for At-Large Community Officer

We all love Venice right? I do that is why I am choosing to run for the VNC. I wish to sit on the environmental committee. The environment is very important to me. I'm an active member of the Westside Permaculture (sustainable living) Group, having volunteered at several events. With GardensofGratitude.org event 2010- where we started 100 free edible gardens, on the Westside over one weekend. This year I'm leading the publicity team. I have donated my time to the VNC by helping with the Green Film Series. Have lived in Venice for 10 years and work locally too. Am a student of natural design and sustainable living. Vote for me and you can rest assured that I will do my best to improve the quality of the Venice green movement and environment. The homelessness issue is another of grave concern to me. So sorry that so many are without homes.
