5) Do you have a vision for Venice? If so, please describe:

Venice is an eclectic place comprised of people of all races, genders, backgrounds and interests. I envision Venice as a city that promotes music, the arts, small businesses and the care and conservation of our greatest asset: the beach. I see it as a place that continues to attract more and more tourists as we shift our reputation from a place of crime and drug-use to a place of community, shared responsibility and support and great opportunities both commercially and socially.

6) Please list all committees, groups, organizations schools churches, agencies, with which you have regular communication.

Thank You for Volunteering to Help Our Community!
