

**APPLICATION SUMMARY SHEET**

PROJECT NAME Westside Campus Beautification	
BRIEF PROJECT DESCRIPTION (50 WORDS OR LESS)  This project will beautify the area of campus along Stongs Drive and Anchorage Street. Part of this area is currently used by Ballona Institute to store native plants. Painting beautiful murals that complement the Grand Canal will improve the area greatly. We will also plant native grasses and reeds in the drain area. This will filter the water and prevent pollution of storm run-off.

## PROJECT DESCRIPTION SHEET

PAGE 2

### PROJECT DESCRIPTION (Include how many stakeholders will be working on this project.) (Maximum 500 words)

This project will beautify the area of campus along Stongs Drive and the public walk street, Anchorage Street. Part of this area is currently used by Ballona Institute to store native plants until they are transplanted into the restored area of the Grand Canal. Ballona Institute works with Westside Global Awareness Magnet by offering local environmental science classes for teachers and students.

We will work with Raoul (Haste) to create beautiful murals that complement the natural beauty of the Ballona Wetlands and the Grand Canal. Raoul has painted several murals on Westside's campus. He has donated his time and materials. He is now requesting only the materials necessary to complete the school murals and maintain them for many years to come. Raoul is dedicated to working with children and adults to create public art that reflects the people and landscape in which it is located.

In addition to murals, we will plant native grasses and reeds in the sunken drain area. Each day the campus cafeteria and yard are cleaned by hosing them down. The water from this runs to the north-east corner of the campus where it drains into the Grand Canal and then flows out to the Pacific Ocean. By planting reeds and grasses in this area, we will be able to capture the run off and allow it to percolate down, rather than send pollutants directly out to sea. This natural water filter will also enhance the unsightly area.

On the project installation days, we will work with the entire school community. All 500 students will be able to take part in the transformation of their school. Volunteers from Ballona Institute will also participate in the planting. An estimated number of stakeholders participating in the week long project is 600.

IS THIS PROJECT PART OF A LARGER PROJECT?  YES  NO

### COMMUNITY BENEFIT (Description of benefit to the entire community and justification for these benefits)

This projects has several profound benefits:

Campus beautification projects on public schools such as this one will make Westside a desirable local school option. Local families will choose to send their children to our school, which will have a positive effect of local traffic concerns, i.e. fewer school busses and fewer parents driving their children to school outside of their neighborhood.

Venice and the walk streets around the Grand Canal are visited by millions of tourists annually. Currently this area is a disgrace and an eyesore. When our project is complete it will demonstrate that we, the people of Venice, care about public schools and about our environment.

This project will reduce ocean pollution and run off.

**ORGANIZATION SHEET (If applicable)**

(Only complete this form if the applicant is an organization. If so, do not complete Page 7)

ORGANIZATION NAME    Westside Boost
ORGANIZATION ADDRESS    104 Anchorage Street, Marina del Rey, 90291
<p>ORGANIZATION DESCRIPTION AND PURPOSE (Include the experience that your organization has in the execution of similar projects)</p> <p>Westside Boost is a small group of dedicated parents, educators, community leaders and local business people committed to achieving academic excellence for every student at Westside Global Awareness Magnet School. We support various projects at the school and host community wide events at the school several times during the school year.</p> <p>In the last two years we have created a flourishing edible garden, a native butterfly garden and a fruit tree orchard for our students and community. We have transformed our front landscape from a littered and neglected area to a beautiful drought tolerant landscape.</p> <p>Westside Boost has been working to bring enrichment programs to our students. This year Westside Boost funded a choir teacher and a garden teacher.</p> <p>We are determined to succeed in creating a desirable neighborhood school.</p>
