C. Motion regarding removal of 38 trees on the four corners of Venice Blvd and Abbot Kinney; Jim Murez (murez@murez.net) **See Exhibit D**

Upon investigation by Jim Murez of Venice Neighborhood Council's Land Use and Planning Committee, it is apparent that DWP was not aware that the palm trees at the corner of Venice and Abbot Kinney were part of the Landscaping Plan adopted in 1994 and were intent on cutting them down without consulting the Venice Community.

When this history was brought to their attention, they began to argue that the trees pose a potential safety problem because they might interfere with overhead high voltage wires. They now suggest that there are only three options to deal with the situation which are: (A) overhead reconfiguration of the wires and conductors; (B) complete under-grounding of services; or (C) tree removal and replacement of different trees. They can leave them as is until there are funds available to implement one of the alternatives, which won't threaten the existing trees (overhead reconfiguration or undergrounding). Simply put, the Venice Neighborhood Council does not want these 38 trees removed or replaced and would like for DWP to implement options A or B.

Further, experience suggests that replacements by DWP often result in eroding the existing friendly community character underlying the VNC Vision Goals, in particular:

Walkability: Consider strategies that reduce the use of cars and that promote alternatives such as walking, skateboarding, biking & bike racks, circulation systems (trolleys), park & ride rather than additional parking, street-narrowing/sidewalk widening, walk/bike/skateboard lanes separated from traffic, easier neighborhood pedestrian access to commercial stores, etc.

LUPC MOTION MADE BY JAKE KAUFMAN, SECONDED BY JIM MUREZ PASSED; 6-0

MOTION: the Venice Neighborhood Council does not want the 38 trees removed or replaced and would like for DWP to implement options to A. reconfigure overhead wires or B. underground all services. E. Proposed Relocation of Venice Post Office; Linda Lucks (President@Venicenc.org) **See Exhibit J**

Whereas the Post US Postal Service is asking for Public Comment

Whereas The U.S. Postal Service (USPS) is proposing the relocation of the Venice Post Office, 1601 Main St., approximately 400 feet to the Venice Carrier Annex, 313 Grand Blvd. There would be no change in Post Office Box holders' address or ZIP Code, nor would this proposed relocation impact mail delivery to residents and businesses in anyway.

Whereas the reason behind this plan is the alignment of USPS workforce and infrastructure with a 20 percent drop in total mail volume over the past three years brought about by the diversion to electronic communication and business transactions. USPS does not receive tax dollars for its operations or facilities, but covers costs through the revenue received from the sale of its products and services.
