RE: Venice Neighborhood Council Resolution Rejecting Marina Del Rey Redevelopment Project Traffic Study and Opposing Local Coastal Plan Amendment

Dear State, County and City of Los Angeles elected and other officials:

The Venice Neighborhood Council, at its August 16 meeting, voted unanimously to support the following motion:

1. The Venice Neighborhood Council recommends that until such a time that:
 - a. a comprehensive traffic study for the Marina Del Rey Development Project is conducted that cures the deficiencies found in the April 2010 traffic study, analyses the regional impacts ignored by the April 2010 traffic study and
 - b. all mitigation measures are evaluated by *both* Los Angeles County and the City of Los Angeles and included in the Marina Del Rey Redevelopment Project Plans

the City of Los Angeles request that Los Angeles County halt permitting activities for new Marina Del Rey Redevelopment Project construction, that Los Angeles County comply with the City's request, and that the California Coastal Commission reject the County's Local Coastal Plan Amendment. The complete resolution is attached. Please review and respond to me with any questions regarding this resolution or the actions the Venice Neighborhood Council has requestd..

Sincerely,

Linda Lucks
President
