PO Box 550, Venice, CA 90294 / www.VeniceNC.org

Email: info@VeniceNC.org Phone: 310-421-8627

MISSION STATEMENT: The Mass, Scale, and Character Adhoc Committee will study the application of requirements for new development in the Coastal Zone to be compatible with existing neighborhoods in mass, scale, and character as mandated by the VCZSP and related planning documents. It will meet with, and solicit input from residents of the Venice Coastal Zone, city officials, and other interested and relevant people in order to research standards and protocols by which these issues may be evaluated in new Coastal Development Projects in order to implement the intent and letter of the governing planning documents in the most fair and practical manner. The conclusions of this Committee will be reported directly to the Venice Neighborhood Council Board. The Committee shall automatically terminate after one year or the seating of a new VNC Board, whichever occurs first.

- G** **Ballona Wetlands Wildlife Friendly Restoration Alternative** Marcia Hanscom on behalf of Environment Committee wetlandact@earthlink.net

MOTION: The Venice Neighborhood Council Board is opposed to the Army Corps of Engineers' announced plan for the Ballona Wetlands that is highly invasive and will bring a massive construction site, including significant traffic impacts, to the Westside community for years; a mechanized, bulldozer-driven landscape alteration that would disrupt the ecosystem and harm habitat for rare and endangered species; and disruption of the ecosystem and the recreation area (bicycle/walking path and rowing area) of the Ballona Creek channel by removal of the earthen levees. The VNC Board also objects to public access being severely limited for the past 9 years and essentially being held hostage for this plan to be completed. Instead, the VNC Board supports the "Wildlife Friendly Restoration Alternative" (attached) community-engaged restoration, based on the "Seven Guiding Principles for Rejuvenation of the Ballona Ecosystem." (attached)
