A **Ballona Wetlands Wildlife Friendly Restoration Alternative** Marcia Hanscom on behalf of Environment Committee wetlandact@earthlink.net

MOTION: The Venice Neighborhood Council Board is opposed to the Army Corps of Engineers' announced plan for the Ballona Wetlands that is highly invasive and will bring a massive construction site, including significant traffic impacts, to the Westside community for years; a mechanized, bulldozer-driven landscape alteration that would disrupt the ecosystem and harm habitat for rare and endangered species; and disruption of the ecosystem and the recreation area (bicycle/walking path and rowing area) of the Ballona Creek channel by removal of the earthen levees. The VNC Board also objects to public access being severely limited for the past 9 years and essentially being held hostage for this plan to be completed. Instead, the VNC Board supports the "Wildlife Friendly Restoration Alternative" (linked) community-engaged restoration, based on the "Seven Guiding Principles for Rejuvenation of the Ballona Ecosystem."
