

## AD COM EXHIBITS 1/14/13

**7G** Report on Status of LAX Airport Modernization (5 minutes) Marc Saltzberg  
mas\_marina@yahoo.com  
Report to be presented by Denny Schneider, a member of the Westchester  
Neighborhood Council and President of ARSAC (Alliance for a Regional Solution  
to Airport Congestion).

The modernization of LAX has been placed before the City Planning Commission - they are due to weigh in shortly. At the WRAC meeting in December we heard:

"...LAWA announced last week that their preferred alternative is Alt 1 which moves the runway north 260' and requires major changes to Lincoln Blvd and Sepulveda along with all of the other local impacts and construction issues... We are told that the Final EIR will be released in January with no significant time to review the responses to the several thousand comments submitted before the approval hearings are held! LAWA has projected hearings to start late January or in February with a target for approval in March."

The VNC has already passed a motion (see attachment) that urges "forego[ing] runway modification which increase runway protection zone impacts on surrounding Neighborhoods... incorporat[ing] safety enhancements that do not require movement of runways... avoiding any new Lincoln Boulevard connection tunnels.

Following the report, the President of the VNC should send a letter referencing our motion and subsequent testimony based on the report to be presented to: Shawn Kuk, Department of City Planning, 200 N. Spring St., Room 667, Los Angeles, CA 90012; e-mail, shawn.kuk@lacity.org. as our testimony to the LA City Planning Commission. Because the VNC has already taken a position, no motion or debate is required for this action.

Attachment: Exhibit A.

On July 19, 2011 the VNC passed the following motion:

**MOTION:** WHEREAS LAX enhances tourism and economic growth in the entire region, the Venice Neighborhood Council ("VNC") urges that any revised LAX Master Plan Elements should:

1. Retain the existing LAX footprint and forego runway modifications which increase runway protection zone impacts on surrounding neighborhoods, or result in wholesale

removal of local businesses/tax base. Improve placement of taxiways to handle the new larger aircraft, and incorporate safety enhancements that do not require movement of runways

2. Reduce freeway traffic and discourage traffic flow into local neighborhoods while avoiding any new Lincoln Boulevard connection tunnels. Improve Central Terminal Area accessibility, including signage, physical roadway, multi modal passenger drop off and pick up, a consolidated Rental Car Facility, and rail connection

3. Hold LAX capacity to its current theoretical threshold of 78.9 Million Annual Passengers and preclude easily added passenger gates or cargo facilities after the 2020 prohibition ends. Encourage development and maintenance of capacity at other regional airports, such as Palmdale and Ontario, which can act as a back up to LAX and which both have available capacity.

In conclusion, the VNC, supports the improvement of safety, security and convenience at LAX but has concerns which should be addressed by the LAX Master Plan update process, including appropriate Environmental Impact Report scrutiny.

**Venice Neighborhood Council - Expenditures to Budget  
November 22, 2012 - December 21, 2012**
